Subject: M6H1 - Harvey Response: Operational questions about the Kleinwood Central Wastewater Treatment Plant
Date: Tuesday, September 5, 2017 4:32:52 PM

Mr. Brooks,

The operator at 713-951-0800 asked me to email you regarding questions about the operational status of the Kleinwood Central Wastewater Treatment Plant.

I know you do not run the plant yourself, but you have an operator that does run the wastewater plant.

Could you have that person call me at 512-239-3476.

I am Juan Ibarra with the US EPA, and we are working with the TCEQ to complete the phone assessments of the WWTPs.

Thanks for your time,

Juan
